ABOUT ME

University student licensed in Engineering and Management of Information Systems, currently in the first year of Master's degree. Determined to learn, improve, and acquire new skills that will enable me to expand my knowledge. At the moment, the areas that attract me the most and in which I feel most comfortable are Data Engineering, Data Science, and Web Development.

EXPERIENCE

Summer Internship - Codepoint.

jul 2023 - aug 2023

I held the position of Web Developer, with the goal of creating a landing page for Codepoint's new product, Klatch. Throughout this internship, I learned and used the following technologies: React, GitLab, Next.js, Mantine, TypeScript, Figma, ClickUp, and Slack. The case study is available in the company's website with the title "Klatch Landing Page".
