## ABOUT ME

I'm an university student specializing in Engineering and Management of Information Systems, I'm currently in the first year of my Master's degree. I'm determined to learn, improve, and acquire new skills that will enable me to expand my knowledge. At the moment, the areas that attract me the most are Data Engineering, Data Science, Machine Learning and Web Development.

## EXPERIENCE

### Summer Internship - Codepoint.

jul 2023 - aug 2023

I held the position of Web Developer, with the goal of creating a landing page for Codepoint's new product, Klatch. Throughout this internship, I learned and used the following technologies: React, GitLab, Next.js, Mantine, TypeScript, Figma, ClickUp, and Slack. The case study is available in the company's website with the title "Klatch Landing Page".

## EDUCATION

### Master's in Engineering and Management of Information Systems

2023 - at the moment, University of Minho

### Bachelor's in Engineering and Management of Information Systems

2020 - 2023, University of Minho - Final Grade: 16

## RELEVANT PROJECTS

- **Water Quality Prediction System:** Deployed a Machine Learning model that predicts the water potability based on a dataset.
- **Data Engineering Project:** Used Hive Metastore to store data via HDFS, implemented an ETL process using PySpark to create dashboards on Tableau and made data-driven decisions based on KPIs.

## RELEVANT SKILLS

- Programming Languages: Python, SQL, HTML, CSS, Javascript, TypeScript
- Frameworks/others: Apache Spark, React, Bootstrap, Git, Scikit-learn
- Soft Skills: Communication, Dedication and Persistency
- Portuguese - native | English - advanced

## VOLUNTARY WORK

- Banco Alimentar Contra a Fome
- LBV - Legião da Boa Vontade
- Refood Vila Nova de Famalicão
